Bouwpaco is a leading Dutch manufacturer of packaging machinery, specialised in packaging machinery for the Baker's Yeast industry.

We are a very flexible company, which has all aspects needed to produce high quality machines. We have our own R&D, Engineering, Manufacturing and Service department. Our machines are designed according to the latest technologies, and where hygienic and labour saving aspects are highlighted.

Bouwpaco is your reliable partner for:

- Rotating vacuum filters
- (noodle) Extruders
- Cutters
- Wrappers
- Cream yeast tanks, Starch tanks, Salt tanks
- Yeast & Emulsifier mixers
- Vertical bag form-, fill- and sealing machines (vacuum packaging and bags up to 25 kg)
- End-of-line packaging machines, cartoning machines and palletizers.
- Reconditioning, modernisation and servicing of yeast packaging machinery (also other brands)
